

FOTSBEATS

ELECTRONIC PRESS KIT

OPEN FORMAT DJ, REMIXER, PRODUCER

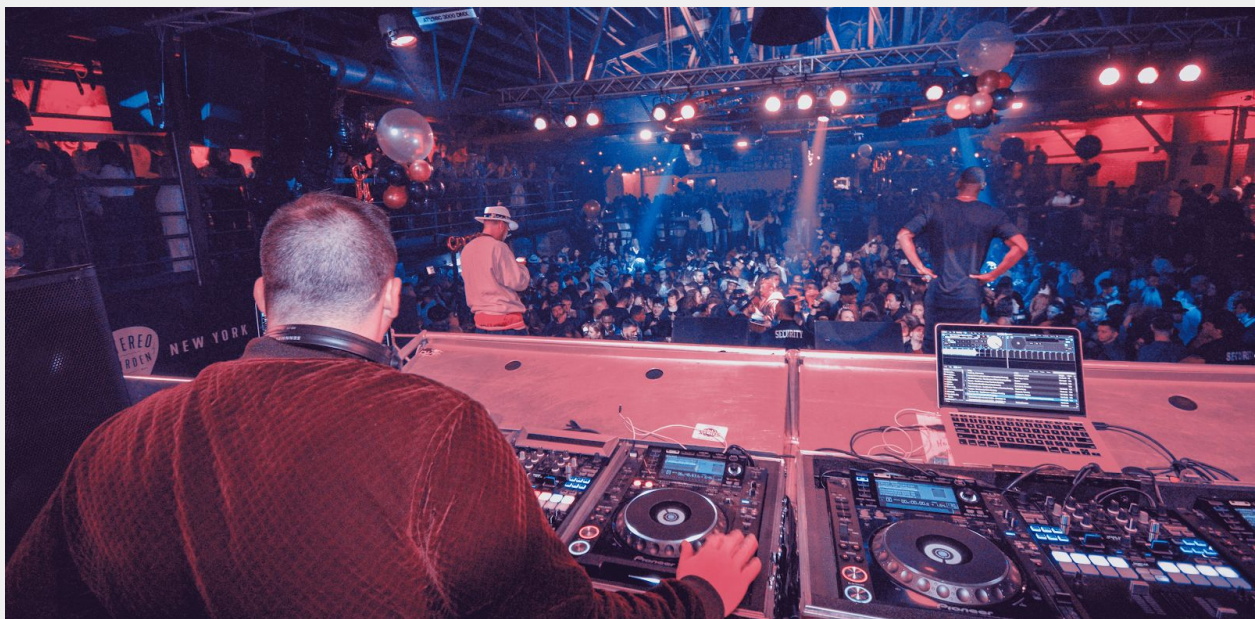

Zach got his start at a very young age with his own interpretation of the classic “two turntables and a mixer” story. A crude bedroom setup allowed for hours of practice, learning how to blend records and imitate the techniques he’d heard from the likes of Jazzy Jeff, DJ AM, Mark Ronson and Z-Trip. More than a decade later, Fots has perfected an eclectic, genre-bending style of dancefloor motivation that takes his listeners on a journey from that song that was their jam back in the day, all the way to some of the newest and freshest sounds emerging from today’s pop culture. Through years of hard work, he has played at a wide variety of nightclubs on the East Coast and has held residencies at some of the

most sought after weekly parties. Djing alongside Funkmaster Flex and Smooth City, Fots has provided a soundtrack for concerts and club appearances for artists such as Fabolous, Ja Rule, Lil Uzi Vert, French Montana, 50 Cent, Lil Wayne, Fetty Wap, T-Pain, Nelly, Ashanti, Sean Paul, Busta Rhymes and many more.
